This paper is submitted in response to the Office Action of September 21, 2005, to further highlight why the application is in condition for allowance.

On November 3, 2005, a telephone interview was conducted between the Examiner, Mark S. Williams, and Joel L. Stevens. The objected to claims 23, 45, and 54 were discussed. Regarding these claims, Mr. Williams suggested, instead of changing “makes it appear” to “makes the device appear”, changing “makes it appear” to “causes an appearance”. The Examiner agreed to this change in these claims, as well as in the amended independent claims. Mr. Williams also proposed changing carrier medium claims 47-59 to statutory computer accessible memory medium claims, to which the Examiner agreed.

Please amend the case as listed below.
